SUMMARY

Solutions Engineer with **4+ years** of experience, focused on **AI automation**, **data engineering**, and **business intelligence**. Builds AI automation solutions with **Microsoft Copilot Studio** and **Azure OpenAI**, **Power BI** data models and dashboards (**DAX**, **SQL**), and custom **Python** and **JavaScript** applications that replace manual business processes. Works across complex, integrated enterprise data environments and represents AI topics within IT at Ei Electronics. Fluent in English and German, working day to day with distributed teams across Europe.

TECHNICAL SKILLS

AI & Automation: Microsoft Copilot Studio, Azure OpenAI, AI Agents, Prompt Engineering, Power Automate, OCR Workflow Automation, Machine Learning

Data & BI: Power BI, DAX, Data Modeling, ETL & Data Transformation, Dashboard Design, KPI & Reporting Automation

Programming: Python (pandas), SQL, JavaScript (React, Node.js), Java

Data, Cloud & Integration: MySQL, REST APIs, System Integration, Microsoft Azure, AWS, Cloudflare, Git

Enterprise Systems & Collaboration: Dynamics 365 Business Central, Infor, Salesforce, ServiceNow, Jira, Confluence, SharePoint

WORK EXPERIENCE

EI ELECTRONICS KG

Germany · December 2024 – Present

Solutions Engineer (Data & AI)

March 2026 – Present

- Design and deploy **AI automation** solutions with **Microsoft Copilot Studio**, delivering **five agents**, several of them rolled out to **50+ employees** across business functions, and acting as IT's representative for AI topics.
- Engineer **three Power BI dashboards** combining ERP and external customer data, owning end-to-end **data engineering** from extraction and cleaning through modeling (**DAX**, **SQL**) to publication.
- Automate recurring reporting and cross-department processes with **Power Automate** and custom **Node.js** applications, removing roughly **2 hours of manual preparation per week** from a recurring management report.

Solutions Engineer (ERP)

December 2024 – March 2026

- Developed **REST API** integrations between the ERP environment and internal and external services, and automated core business processes including **OCR-based order intake** and **invoice posting**.
- Acted as primary internal technical contact for the cross-border setup and go-live of an international subsidiary, coordinating day to day with colleagues in Ireland across a landscape spanning **three legal entities**.
- Authored and maintained system documentation, **security roles**, and user enablement material in **Confluence** and **SharePoint**.

MERCEDES-BENZ

Germany

Intern & Bachelor Thesis

October 2023 – September 2024

Information Office Production & Logistics

- Developed an **AI-based prototype** on **Microsoft Azure** using **Azure OpenAI** to automate and improve system documentation.
- Identified structural inefficiencies in system documentation processes and translated them into the foundation of the Bachelor's thesis, *Enhancing System Documentation with AI: A Case Study on Implementation and Evaluation* (grade 1.7).
- Standardized project communication and task tracking using **ServiceNow**, **Mural**, and **Jira**.

METRO MARKETS

Düsseldorf, Germany

Seller Support (Working Student)

March 2022 – September 2023

- Enabled international marketplace operations across **5 European markets** and **300+ sellers** (including Italy, Portugal, the Netherlands, and France), coordinating day to day with colleagues in Spain on ERP and process readiness.
- Built **Power BI** dashboards with the BI team for seller and product analytics, including reporting for a key account.

PROJECTS

- BONUS CALCULATOR (EI ELECTRONICS)July 2026
- Built a **React** and **Node.js** web application connected to the ERP system through a **MySQL** database to automate a monthly accounting calculation, cutting the cycle from **2–3 days of manual work to 1–2 hours** (roughly **16–24 hours saved per month**).
 - Delivered a **KPI dashboard** and reporting layer supporting management decisions, including data-driven price recommendations.

- INVOICE FORMAT CONVERTER (EI ELECTRONICS)June 2026
- Identified that the ERP could not produce a legally required **XML** invoice format, and chose a standalone application over an ERP modification to avoid customization risk across the entity landscape.
 - Built the tool in **Python** as a packaged executable with a simple UI, automating extraction and validation with **pandas** while keeping every document within defined process criteria.

- CINEMALYTICSApril 2024
- Built a **machine learning**-driven movie recommendation platform in **Python** and **SQL**, helping producers select optimal streaming platforms.
 - Applied **Random Forest** models to analyze genre-platform performance and optimize placement decisions.

EDUCATION

BOCHUM UNIVERSITY OF APPLIED SCIENCESOctober 2021 – October 2024

Bachelor of Science in Business Informatics
Bochum, Germany

CERTIFICATIONS & TRAINING

AI Automation Specialist, Digital Beat GmbH (Germany, Jun 2026)
Digital Shaper (AI & Deep Learning), TechLabs (Germany, Sep 2024)
Digital Shaper (Data Science), TechLabs (Germany, Apr 2024)
Workshops attended: Microsoft Dynamics 365 Business Central; AI Governance & Ideation

LANGUAGES

English – Fluent · German – Fluent · Arabic – Native

VOLUNTEER EXPERIENCE & AWARDS

Growth Acceleration Manager, TechLabs Global (2024 – 2025). Planned and delivered in-person community events, including the Digital Shaper Summit.
Robotics Race, First Place, Hochschule Bochum (Germany, 2021)
